**Louise Riotte : The Complete Guide to Growing Berries and Grapes** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Complete Guide to Growing Berries and Grapes:

2 of 2 people found the following review helpful. Best Book for your Berries GrapesBy mangledinaI love this book. It's easy to read and understand. Riotte is one of my absolute favorite gardener writers: Carrots Love Tomatoes is another Riotte book worth reading if you want to improve your gardening. Her books are as good as talking with my Grandma S. or my Grandpa D., both great gardeners in the old-fashioned way. Both distrusted chemicals, fancy fertilizers, etc. Riotte gives you the secrets to raising your berry plants or grapevines: like to trellis or not, planting times, mulching and when, pruning and when, and so much more. My Carrots Love Tomatoes book is almost 40 years old; I wouldn't trade it for anything--in fact, it's in my will for my gardening son. This wonderful Guide to Growing Berries Grapes is also about 40 years old, but I only bought it recently when I saw Riotte's name on it--absolutely NO disappointment. You won't regret owning either one.1 of 1 people found the following review helpful. ... I was looking for without a lot of extra garbage about currently popular cultivarsBy mary cherekGave me just the info I was looking for without a lot of extra garbage about currently popular cultivars, etc. A very practical guide.
