Sydney A. Sykes : The Country Diary Book of Decorating: English Country Style before purchasing it in order to gage whether or not it would be worth my time, and all praised The Country Diary Book of Decorating: English Country Style:

0 of 0 people found the following review helpful. Outdated.By JKI bought this book based on reviews that stated that English country style never changes, not true. I'm sure this book was great in its day, but it is really dated now, which explains why it's out of print. It is too full of overly draped and pleated, ballooned, festooned, and swagged curtains, wallpaper gone awry, and matchy-matchy florals. I love English cottage style. I love floral curtains and floral wallpaper tastefully done, but this is too 1980's, way over done. There are some nice rooms in this book, and there are photos of nice china, pitchers, and furniture, but style wise this book is too dated. I recommend English Country Cottage by Sally Griffiths, or English Country Cottage by Ros Byam Shaw.3 of 3 people found the following review helpful. Beautiful book!By pianostarThe photos and artwork in this book are beautiful. I love the style. Liked the book so much I ordered it for a friend.5 of 5 people found the following review helpful. All Things BritishBy Christine BaileyI wish I could live there so anything I can find about decorating and the way of life in the UK, I am thrilled. I think the dcor is timeless and no need for change.

A practical and highly original approach to home decorating. The colours and images of the natural enbironment mirrored in interior design. Specially commissioned colour photographs illustrate Country Style decorating for the

whole house.
