Art Boericke : The Craftsman Builder before purchasing it in order to gage whether or not it would be worth my time, and all praised The Craftsman Builder:

0 of 0 people found the following review helpful. Wonderful book in very good condition.By jake bonesI had been looking for this book for a long time. Glad to finally have a copy again. It shows some really creative home designs that are built with small budgets but a lot of love and labor. The book was in very good condition.1 of 1 people found the following review helpful. Wood Butchering Blast from the PastBy mitzi miles-kubotaBoericke's books on wood butchering are the best in existence. I had them when I was younger and lost them somewhere along the way. So glad to have found them again. It's time for this kind of revival in building.1 of 1 people found the following review helpful. 2nd in the seriesBy Greg VolklandI found this book to be a shallow mirror of the first book in the series which I thought was very good. While this one had some interesting parts over all I ended up disappointed.
