Niall Edworthy : The Curious Gardener's Almanac: Centuries of Practical Garden Wisdom before purchasing it in order to gage whether or not it would be worth my time, and all praised The Curious Gardener's Almanac: Centuries of Practical Garden Wisdom:

0 of 0 people found the following review helpful. Fanciful and PracticalBy L. GustafsonWe love this little book have been reading it for years. It's full of Edworthy's accumulated knowledge (he bought his land knowing pretty much nothing) the knowledge of his neighbors various writers (even poets). It's a fanciful practical. Read it straight through, or do as we do and read a little bit every day, week by week, year by year.0 of 0 people found the following review helpful. Delightful Wisdom BookBy Alice BidoisThis book was left on a BB table and its artistic appearance attracted me to it immediately. Printed in dark green, with numerous old-fashioned illustrations in the same ink, it shares all sorts of wise observations, witty comments, and useful advice. It's not really an almanac, but rather a treasure box that you are supposed to sip like tea in various sittings. It's a wonderful gift to a gardener and to anyone with a sense of humor. Perfect for a Christmas stocking.0 of 0 people found the following review helpful. This is an excellent book with tons of informative tips on gardening and ...By MCBThis is an excellent book with tons of informative tips on gardening and other interesting nature-related tidbits....including a few recipes!

A delightful anthology of curiosities that honors the gardening life. Celebrating the garden in all its splendid diversity and rich history, this collection of facts, ancient wisdom and customs, tips, and recipes features more than 1,000 entries-remarkable information about flowers, vegetables, fruits, trees, herbs, insects, birds, water, soil, tools, composts, climate, gardens and gardeners, myths, superstitions, and biodynamics. Woven into this wealth of knowledge are famous quotations, anecdotes, traditional sayings, lines of verse, and words of rural wisdom. It's a wonderful gift for any gardener, whether they're tending a window box or a full-fledged farm.

"Packed full of recipes, sages, tips and histories, it is a perfect addition to any greenhouse collection... this book has the capacity to encourage, inform and inspire... A perfect present for the green-fingered" * The Ecologist * "Crammed with weird facts and ephemera, time-honoured tips and old sayings... this charming book defies categorisation. It'll come in handy for the pub quiz, though" * Daily Mail * "Collection of nuggets and ancient wisdom related to gardening" * The Sunday Times * "The Curious Gardener's Almanac is a beautifully written and produced gem of a book. Just the right size to fit into the pocket of a raincoat it is full of helpful hints garnered over the ages" * Living North * "This is a joyous book" * Nottingham Evening Post *About the AuthorNiall Edworthy is the author of over a dozen books published in England, covering subjects from biography to outdoor survival. Gardening is his most recent obsession.
