This is not a real book, and it was basically useless for repairing an existing irrigation system. It does not even go into types of heads, valves etc.. all black and white. This

could be an item for the dollar tree store.0 of 1 people found the following review helpful. More specifics neededBy SteelmanThe artical lacked detail. It would be helpful to offer suggested water pipe sizes per zone per lenth of run. Also more information on valve options and controllers.0 of 1 people found the following review helpful. Four StarsBy Dennis P CareyVery informative, a lot of information for the do it your selfer.

Your front yard is likely the first thing you see when you come home from work at the end of the day. And Your backyard is where you, your family and friends probably spend a LOT of time.
