Editors of The Family Handyman : The Family Handyman: Decks, Patios, and Porches before purchasing it in order to gage whether or not it would be worth my time, and all praised The Family Handyman: Decks, Patios, and Porches:

11 of 12 people found the following review helpful. Good starting point By A Customer I particularly like the section on paver patios. It has good ideas for deck and patio projects, and serves as a good place to start planning your deck or patio project. I don't think this book is all you need to build your project, though. You may need more documentation.

A comprehensive guide to creating front porches, gazebos, screened-in dining rooms, and other outdoor living areas includes diagrams, full-color photos, materials lists, time estimates, and additional information on how to personalize the basic projects.
