is a most important book.0 of 0 people found the following review helpful. Great ReadBy CustomerA great little book packed with lots of information about grasses, without which we would surely suffer. I highly recommend it.0 of 0 people found the following review helpful. good .By Davisgood product . great . very fast, receive it next day, send it to my grandson, Got this product as a Father's Day gift. He loves the product. For its price, it is excellent quality. A very good looking tool too. In addition, the customer service was excellent. I certainly would recommend it!

This work explores the world of grass from every possible perspective. It elaborates in minute detail the botany of a grass field or lawn, talks to the groundsmen of Wimbledon and West Ham, explores the ornate history of the lawnmower and the minutiae of cattle-breeding, and surveys the development of the municipal park.

A modern Grapes of Wrath. The TimesFrom the Inside FlapIn his brilliant new work, the author explores the world of grass from every possible perspective. He explains its role in history, and elaborates on the botany of a grass field or lawn in minute and fascinating detail. Ultimately the book presents a persuasive argument for the return to chemical-free farming, centered on a respect for nature.From the Back CoverA modern Grapes of Wrath. The Times
