I was planning on going to North Carolina this month to pick up a new living room set when I saw this book. It probably saved me over \$[money]. Thanks to Kimberly and her marvelous guide I saved time, money and wasn't overwhelmed by all the outlets. Having read the book and highlighted the most interesting stores I got exactly what I wanted in a timely fashion and within my budget.0 of 0 people found the following review helpful. Terrific Guide!By A CustomerI am furnishing a new house and looking for all types of furniture. I had heard North Carolina was the place to go. With this guide, all the questions I had have been cleared up. As a matter of fact, since I already knew the make/model # of the items I wanted I was able to call up many of the places in the guide and do my shopping over the phone!! On one item- an end-table, it is retailing for \$... - I got it for

\$... plus only \$... shipping (includes set up in my house) from North Carolina to NY!...I know I will save thousands. I have already saved hundreds! The trick to using this guide is KNOWING the make/model# of the item you are after so you can specifically ask for that when you call/visit places in the guide. Otherwise the guide will help you map out a trip to NC if you just want to browse....
