Robert C. Baron : The Garden and Farm Books of Thomas Jefferson before purchasing it in order to gage whether or not it would be worth my time, and all praised The Garden and Farm Books of Thomas Jefferson:

0 of 0 people found the following review helpful. Five StarsBy Gatorbut a boring read0 of 0 people found the following review helpful. Interesting but not what I expectedBy PupDaddyIf you like simple list of what was going on at Jefferson's estates then you'll like this one. It is interesting to wonder how detailed Jefferson was.28 of 29 people found the following review helpful. If There Were a Ten Star Rating.....By Therese YeatonIf there were a ten star rating, I would give it to this book! If only all of our Presidents were so committed to the values of home and garden.This is a wonderful book, both for Jefferson fans and gardeners. Since I'm both, it is doubly wonderful. You can read Jefferson's records of what he planted when, his observations about all sorts of garden topics, his letters to friends and family about gardening, and see the voluminous records he kept about all things horticultural.

Includes Jefferson's correspondence, drawings, and plans for Monticello's gardens.

About the Author Robert C. Baron, the founder and chairman of Fulcrum Publishing, is a historian, scientist, and the author of or contributor to 25 books, including *Pioneers and Plodders: The American Entrepreneurial Spirit*.
