An award-winning garden designer's unique union of a practical how-to book with stories and philosophy The Garden Awakening is a step-by-step manual to creating a garden in harmony with the life force in the earth, addressing not only what the people in charge of the land want but also asking what the land wants to become. Mary Reynolds demonstrates how to create a groundbreaking garden that is not simply a solitary space but an expanding, living, interconnected ecosystem. Drawing on old Irish ways and methods of working with the land, this beautiful book is both art and inspiration for any garden lover seeking to create a positive, natural space.

"Mary Reynolds here gives charming and practical expression to the wild, free and joyful voice which beckons us all . . . The Garden Awakening reminds us that the natural but hidden connections between soil and soul are at once familiar, comfortable and sovereign." Peter Bane, permaculture activist, author and designer
