I am enjoying reading this book at bedtime because the author was clearly enthusiastic about gardens and gardening, and so am I. I concur with another reviewer who pointed out that the author was very well-to-do (tips usually take the form of "have xyz done," assuming you have someone to work for you), so most of us would not relate well. What bothers me most, however, is that there are a few racial and gender statements typical of phrases and attitudes in the 1920s that are quite offensive now. In fact, when the first instance cropped up, it affected my whole attitude to the writer, although I know he was a product of his time. The author's comments on the coziness and security of home during bad weather or bad times and other domesticities do stand the test of time, though, and I've enjoyed some laughs from his comments on visitors from the city. All things considered, you may want to check the book out of a library and see if you like it - or can tolerate the occasional un-PC lapses.

A wonderful book! One doesn't even need to be a gardener to enjoy this book. It might even encourage a non-gardener. The writer is very entertaining and has a special gift of humor. The diary format is great.

First published in 1929, *The Gardeners Bed-Book* is a much beloved gardening classic by the renowned editor of *House Garden* magazine in the 1920s and 30s. Each of its 365 perfectly sized little essays is meant to be read in bed at night after a long day's work, either real or imagined, in the garden. A charming and mischievously funny companion to curl up with, Wright ranges comfortably and lyrically from giving gardening advice to meditating on such topics as antique collecting and travel, great literature and architecture. He is an addictive delight, as memorable describing the challenges of growing plume poppies as he is the simple pleasure of hanging up the dish towel once the housework is done. Written in language that is as timeless as it is seductive, *The Gardeners Bed-Book* will appeal to gardening experts and armchair enthusiasts alike. This Modern Library edition is published with a new Introduction by Dominique Browning, the editor in chief of *House Garden* and author of *Around the House and in the Garden* and the forthcoming *Paths of Desire: The Passions of a Suburban Gardener*.

I devoured it in a single sitting, front page to last, and I'll wager that many, many others have done so before me. Allen Lacy Richardson Wright's resonant meditations on everything from the staking of lilies to the appreciation of nineteenth-century prints of roses are pithy, often amusing, and are marvelously distilled from his life as a master editor and gardener. They will delight a generation that never knew him. Henry Mitchell, *The Washington Post*
