Andrew Wilson : The Gardens of Luciano Giubbilei before purchasing it in order to gage whether or not it would be worth my time, and all praised The Gardens of Luciano Giubbilei:

9 of 9 people found the following review helpful. You either like this kind of garden design - or you don'tBy RCI purchased this book as reference for contemporary garden design ideas. I love the work of Luciano Giubbilei. I must admit the examples of his designs appear to be more of a 'variations-of-a-theme' rather than a portfolio of different solutions. (Except for the Morocco installation.) The designer's work is inspiring to those who enjoy a 'controlled' garden presentation (rigid, linear, geometric and balanced, clean - almost monochromatic) versus an English Country garden layout. If you LOVE sculpted Boxwoods in geometric forms, limestone, uplighting and water features - with artwork, then you will enjoy this book.I also purchased my copy from a listed supplier rather than directly. Saved over \$15 on a NEW, wrapped book.7 of 7 people found the following review helpful. A beautiful coffee table book!By Alice TilneyA lovely 'coffee table' book in full color. A lovely display book of fabulous gardens. The script is just so-so. Luciano is a gifted landscape architect. Quite a wonderful tour of beautiful gardens.1 of 1 people found the following review helpful. Brilliant book and a great designerBy S. W. DavisBrilliant book and a great designer. He wisely included his nursery supplier in the book who is really critical to much of what I like about this book.

The name and reputation of Luciano Giubbilei have been growing steadily since first publication of this book in 2010. His list of American clients rises year on year and we are bringing this title back into print in May to coincide with a major speaking tour in the US and abroad. Luciano has been creating serenely beautiful gardens in locations on three continents since 1997. He is best known for the understated elegance of his designs, paying careful attention to the composition of space and constantly evolving his approach both in response to his clients and as his ideas develop. This book examines 12 significant gardens from Luciano's portfolio, and fully documents each project, from the preparation of mood boards to final planting and finishing. The book includes sections on site development, nursery production and the sourcing of plants, and the artists and craftsmen with whom Luciano works, detailing his working methods and sources of inspiration. Featuring planting plans, documentary images and photographs from award-winning gardens photographer Steven Wooster, the book paints a detailed portrait of this acclaimed garden designer.

This book is a testament to a life's work in progress: the development of a new calligraphy, typeface, even vocabulary of gardening. Gardens Illustrated Disciples of acclaimed garden designer Luciano Giubbilei's pristine, minimal look would love a copy of *The Gardens of Luciano Giubbilei* written by his former teacher Andrew Wilson, with glorious photographs by Steven Wooster. Evening Standard About the Author Andrew Wilson is a garden designer, lecturer and writer, and is also Chief Assessor for the Royal Horticultural Society for show gardens. His previous publications include *Influential Gardens*, *The Book of Garden Plans*, and *The Book of Plans for Small Gardens*, all published by Mitchell Beazley.
