Wish to know more about hand planes?By m obergIf you love hand planes or just want a look into the complex variety of this one necessary and still useful hand tool, this is the book that belongs on your shelf. From the common to the rare to the beautifully made, this book takes a look at them all. This is not a collectors guide but rather a illustrated trip into what is out there for auction or stored lovingly on the shelves of collectors. If you wish to know more about hand planes get this book.
